

900 Shore Pine Ct.
Fort Collins, CO 80525

Dear Rick:

It is our pleasure to write this referral letter on your behalf. Our experience with you as our builder was one of confidence and trust. We respect your professionalism and attention to detail that is so important in custom home building.

While we are extremely pleased with the high quality of workmanship in our home, it was your willingness to incorporate our unorthodox ideas into the building plans that set you apart from other builders. You never even flinched when we asked to use glass block incorporated with fiberoptic lighting, and when we showed you the antique doors and mouldings that we wanted to add, you gladly said, 'We can do that!' We could sense that you took great pleasure in building our home.

While you always made us feel that there were no boundaries to the variety of ideas we could suggest, you were always aware of keeping within budgetary guidelines. We appreciate that you kept us promptly apprised as to the cost of our changes, so that we could make informed decisions on paper rather than after the fact. This helped us to sleep better at night and resulted in no surprises at closing.

In the seventeen months that we have been in our home we have often looked at each other and marvelled at how easy it was to build from the ground up. We have you to thank for that. (no headaches, no pressure) just quietly getting the job done!

Sincerely,

Steve and Rosie Wheeler
